Exiting the banking business

Since early 2023, Sasfin has been communicating with clients about our strategic reset. As part of this, we exited our Capital Equipment and Commercial Property Finance businesses in 2024 through a sale to African Bank and licensed our B\\YOND banking platform to them. Sasfin is now repositioning as an unlisted financial services group focused on two core investments – Wealth and Rental Finance – which are being established as standalone businesses to better serve their clients. Wealth continues to deliver strong performance across global investment solutions for private and institutional clients. Rental Finance remains a key growth driver, providing billions in funding through leading equipment partners.
